PITCH PINE LUMBER AND TIMBER CONDITIONS

MARKET RETAINS STRONG FEATURES WITH EXCELLENT SUPPLY AND CORRESPONDING DEMAND—LARGE EXPORTS TO MEXICO.

The Gulf Coast Record contains the following for the week ending March 11:

Freight Market Conditions.
Timber.—For tonnage there is a moderate inquiry, but no change in previous rates. The fixtures are: Str Cymbeline, 2150, Port Arthur or Sabine Pass to Marselles, Genoa and (or) Savona, \$55, one port, \$75 6 if two, 90s if three. April-May; bk Borgbilde, 725, Sapelo to U. K., 775; str Wentbridge, 1753, Mobile to named ports U. K., 80s one port, \$256 if two; str Pennine Range, 2215, Pensacola and Mobile to London, Rotterdam and Hamburg, 80s one port, \$256 if two, 250 strds hewn under deck 256 extra, April.

River Plate.—No material change to note. The fixtures are: Str Northfield, 1329, Gulfport to Rosario, 965; March; sch Adonis, 318, Jacksonville to Cayenne, p. t.; bk Friga, 877, Gulfport to Rosario, \$10.50; sch Crusader, 996, Gulf to Rosario, \$10.50.

West Indies.—Small and medium sized vessels are moderately offered, but the demand is not of sufficient strength to improve previous rates. The fixtures are: Str Iris, 859, Gulf trade, one round trip, \$250; sch Omega, 199, Fernandina to Havana, \$5.00; sch Charlevoix, 427, Mobile to Matanzas, \$5.00, and a second trip \$5.50; sch Susie P. Oliver, Moss Point to Havana, \$5.25; sch Lillian Blauvelt, 195, Fernandina to Havana, \$5.00; bk Hornet, 407, Gulfport to Colon, \$8.25.

Pitch Pine Market Conditions.
Sawn Timber.—The market retains its strong features. The small cut is the foundation of this strength. The situation, or the law of supply and demand, favors the manufacturer. When the enormous demand for all kinds of lumber and the heavy demand for coastwise timber are considered, the reason of the firmness in the sawn timber market is readily understood. The sales reported at Mobile were 166 pcs., 27 1/2 cu. ft., av. 18c. Stocks on the Gulf have increased 3,000 pcs. The arrivals at Mobile were 2,000 pcs. and the city mills made 2,000 pcs. A number of cargoes are loading and stocks will be heavily drawn upon for the next fortnight.

There are no indications of any increase in the small cut. Gulfport, Miss., is now a decided factor in the sawn timber market. During February about 12,000 pcs timber were handled through Gulfport for export. No account is kept of the amount handled at that port for the interior markets. The J. E. North Lumber Co., Bond, Miss., is loading the str Graphic, 2152, at Gulfport, with a full cargo of sawn. Values abroad are improving, but they are yet far behind those of the Gulf. However, there is an improvement, and it is not necessary for shippers to force the market. Shippers are offering 20c net, for 12x12, 30 cu ft average.

Logs.—The log supply is excellent. At Mobile 3,000 arrived to the mills and 1,500 came in on the market. The woods are in fine condition for logging.

Heartface Floorings.—The interior markets are absorbing the entire cut. Exporters are getting only the amount held by contracts made early in the season.

River Plate.—There is a fair volume of business offering, but the mills have in a measure lost interest in the South American market, owing to the enormous demand from other quarters. There is no inclination on the part of the mills toward anything less than full values for all business accepted. Freight is in the shippers' favor, with an abundance of tonnage offering. There is a large fleet loading.

Panama R.R. Schedules.—The Panama R.R., with offices at 24 State St., New York City, has sent out schedules of 200,000 ft of 2x8x7 to 31 ft long; 118,000 ft of 1x4 to 12x10x7 to 30 ft and 400,000 ft of 1x10 to 12x12x20 to 40 ft long. This material is for quick delivery, to the steamer of the United Fruit Co., at Mobile or New Orleans, payments to be made on receipt of a bill.

Cuba.—The demand is good and a great scarcity exists of 12" boards. The Mobile shippers are doing all of this business that they can handle. The mills are forcing values, compelling the shippers to do the same. The outward movement is large but is readily absorbed by the enormous consumption.

Coastwise.—The demand is excellent. Inquiries for 10,000,000 ft came in during the week. The mills are not inclined to cut Savannah merchantable while the demand is so great for much more desirable cuttings. There is more coastwise lumber now being cut and schedules offering than ever before in the history of the trade. There is a perceptible stiffening of values. The log supply is excellent but the cutting capacity is inadequate. A number of cargoes are now loading. The Canadian Pacific Ry is loading the str Sellaia, 2263, at Gulfport, Miss., with 2,500,000 ft car material. This cargo is part of the 7,000,000 ft recently placed with the Gulf mills. The demand for factory flooring is brisk. A schedule is now out for 2,000,000 ft, New York delivery. The sch Mary B. Judge, 399, has been fixed. Mobile to Philadelphia, dry express, \$5.75.

Interior.—The urgent demand con-

tinues. Stocks are badly broken, some of the mills report their stocks short 7,000,000 ft. The car factories continue to be the heaviest buyers. During the past week the various railroads placed orders for 437 passenger cars; 634 flats; 6,500 gons; 3,115 box cars; 101 cabooses; 5,535 steel cars; 6,000 hopper cars; a total of 22,358 cars. Orders were also placed for 294 locomotives. Building operations in the Northern cities are on a large scale. Chicago's building permits for February amounted to \$3,472,700, against \$2,202,390 for February of last year. Spring trade promises to be enormous. It is evident that the cut will fall far short of the demand. All of the mills are filled up and fancy prices are being offered for quick shipment. 1905 will go on record as the banner year for the yellow pine manufacturers. The car supply is good and shipments are limited only by the cut. The demand continues to increase. The mills are getting \$21 for 2" finish, 6" and up to 6" b. mill and car siding is being looked at \$21. Building not only goes on uninterruptedly in all sections of the country, but it shows a remarkable increase over the corresponding period a year ago. Twenty-five of the principal cities show an increase of 55 per cent for February over the same month a year ago. During the month just closed permits were taken out in these cities, according to official reports for the construction of 4,902 buildings, aggregating in cost \$22,502,806, against 4,203 buildings at an estimated cost of \$14,517,085 for the same month a year ago, an increase this year of 699 buildings, \$7,985,741, or 55 per cent, in cost. The increase for January was 83 per cent. It will be observed that the increase of the preceding month is fairly well maintained.

Mexico.—Mexico is making remarkable progress and millions of feet of lumber and ties are being consumed. Imports into Mexico for 1874-1875 amounted in value to \$18,793,493, of which this country shipped \$5,028,635 against \$75,904,807 1902-1903, of which this country shipped \$40,795,956. During 1874-75 Mexican exports amounted to \$27,318,788, of which this country received \$13,558,167, against \$192,389,493 for 1902-1903, of which this country received \$13,558,167. The development in railroad building in Mexico has been phenomenal.

Among the Mills.—The mills are crowded and all are running full time. For at least 60 days it will be impossible to place any except the most desirable schedules. The mills are wholly indifferent about accepting new business. W. F. Green, Leaf, Miss., has been succeeded by the W. F. Green Lumber Co. This concern, having ample capital, will do a large business. The Scotch Lumber Co., Fulton, Ala., is running nights and reports heavy business. The mills at Mobile are cutting full time, selecting cutting suitable for their logs. Schedules of special lengths are not accepted. The Hand Lumber Co., Dolive, Ala., is doing an enormous business. The McClure Lumber Co., Wagar, Ala., reports business better than ever before.

Among the Shippers.—The serious question at the moment is that of securing stocks for the large fleet now loading. Interior values are far above those offered by the shippers. The J. E. North Lumber Co., Bond, Miss., is loading a very fine cargo of sawn on str. Graphic, 2152, at Gulfport, Miss. The mills are making good deliveries.

ELOPED WITH A MINISTER
DAUGHTER OF THE VILLAGE
BLACKSMITH STEADILY REFUSES BAIL.

By Associated Press.
New Brunswick, N. J., March 14.—The trial of J. W. Cordova, the unfrocked minister and formerly pastor of the Conkling Methodist Episcopal church of South River, who is charged by his wife with assault and battery and abandonment as a result of two sensational elopements with the daughter of the village blacksmith, was begun here today. Miss Julia Bowne, the young woman with whom Cordova twice fled, has persistently declined to forsake him and was brought into court today as an extremely unwilling witness. She has been kept in jail as a witness, steadfastly refusing to accept bail for her release.

The first elopement of the pair was last May, but they returned to South River soon afterward. A few weeks ago they again eloped going to Washington, where they were apprehended and brought here under arrest. Miss Bowne still proclaims her fidelity to Cordova and he has repeatedly declared his willingness to accept punishment if Miss Bowne is unharmed.

Dry weather is facilitating logging, and the mills are running full capacity. The outward movement from the Gulf is large in the aggregate. Mr. E. H. Barton, of Barton, Thompson & Co., London, is visiting his agents, Messrs. J. E. North Lumber Co., Bond, Miss. Mr. Barton reports an improvement abroad, but nothing to correspond with that noted on the Gulf.

Railroad Bond Issue.
By Associated Press.
Philadelphia, March 4.—At the annual meeting of the stockholders of the Pennsylvania railroad held today an issue of new bonds not to exceed \$50,000,000 was authorized.

A wheelman's tool bag isn't complete without a bottle of Dr. Thomas' Electric Oil. Heals cuts, bruises, stings, sprains. Monarch over pain.

FOR THE LADIES.
Ladies, go to the Escambia Hotel today and see the A. Nachman line of Ready-to-Wear Garments. 'Tis an education to lovers of style, and whether you intend placing an order or not you are just as welcome to see the pretty things.

Md. E. O. L. Chaffers and his band will hold band concerts on the bandstand at Escambia Hotel, from seven to nine-thirty o'clock each Tuesday and Friday night. Visitors cordially welcome.
ESCAMBIA HOTEL.

DRUGS WERE WELL MIXED
SHOWING/MURDEROUS INTENT.
EVIDENCE IN STANFORD POISONING.

By Associated Press.
Honolulu, March 14.—The Advertiser will to-morrow print an interview with Dr. Wood, who performed the autopsy on the body of Mrs. Stanford. He says that the presence of strychnine in the bottle of bicarbonate of soda refutes all the theories of natural death. The strychnine was a foreign substance, and it did not belong to the preparation of bicarbonate. Dr. Wood declares that the poison was thoroughly mixed with the bicarbonate of soda by some one who was thoroughly familiar with the strength and effect of strychnine, but he does not say that the strychnine was placed in the bottle with murderous intent. In effort to account for symptoms on the theory of natural death, he said he can make the ante-mortem signs or post-mortem signs apply to prove that death was due to many causes.

Busy With Testimony.
The detectives have five stenographers working on the statement they have taken today in the Stanford case and four are engaged for to-morrow. Captain Calland said tonight that he is well satisfied with the work so far accomplished, and he will probably be able to make a statement to-morrow. Detective Reynolds says it is unlikely that any definite conclusion will be reached here.

It can be stated positively that so far as their work has gone the detectives are strongly inclined to disagree with the conclusions reached by the Honolulu police.

Honolulu, March 14.—That Mrs. Stanford died naturally probably will be the conclusion of those who are now engaged in an investigation of the case. President Jordan, of Stanford University, has emphatically expressed it to be his opinion that Mrs. Stanford's death was not due to strychnine poisoning.
